International Conference on Digital World and Engineering Education (ICDWEE)

April 30, 2021, Almaty, Kazakhstan

International Conference on Digital World and Engineering Education (ICDWEE) is a conference organized in frame of ERASMUS+ program “The advanced Center for PhD students and young researchers in informatics” 610166-EPP-1-2019-1-SK-EPPK2-CBHE-JP” project “ACeSYRI” hosted by Almaty University of Power Engineering and Telecommunications (AUPET).

Participants: PhD students, Teaching staff, students – of universities of Kazakhstan and European Union (Acesyri partners and other), RK Ministry of Education and Science (Bolognian process and academic mobilities Center of RK)

Scope & Topics

ICDWEE will provide an international forum for sharing knowledge and methodology in engineering education, applications of AI, software engineering, machine learning. The conference looks for contributions to all fields of the IT engineering, higher engineering education. The aim of the conference is to bring together the researchers and practitioners from both academia as well as industry to meet and share cutting-edge development in the field.

Authors are solicited to contribute to the conference by submitting papers, demonstrating research results, projects and industrial experiences in the following areas, but are not limited to:

eCommerce and ePayment eLearning IT services Mobile computing Automation of Services Human-machine interaction Modalities of User Interfacing	Virtual Reality IoT Industry 4.0 Recycling and energy efficiency Green universities/institutes: cases studies IT in power engineering
